ROSÉ WINE

"Rosé is a wine that entertains long before it even passes your lips. Its comely colors have in fact been likened to sunset in a glass. With better bottles, its bouquet will live up to its look, refreshing you with juicy red fruits ... joined sometimes by floral essences, citrus fruits, or perhaps a whiff of minerals."

Mark Oldman - Oldman's Brave New World of Wine

DESSERT WINE

Late harvest is a term applied to wines made from grapes left on the vine longer than usual. Late harvest are often more similar to raisins, but have been naturally dehydrated while on the vine. Botrytis cinerea or noble rot, is a mold that causes grapes to lose nearly all of their water content and is generally very sweet.

FORTIFIED WINE

Fortified wines are made by adding a proportion of grape spirit or brandy, to the wine at some point during the production process. The reason for fortification was to preserve wine from turning acetic or help keep the wine longer. Adding the extra alcohol during the fermentation process stops the fermentation by killing the yeast.

Port is arguably the greatest of all fortified wines and its paramount expression, Traditionally it is served towards the end of the meal with cheese, as a dessert wine or as an after dinner drink

GRAPPA

The main ingredient of grappa is pomace, which consists of the grape skins, seeds and stalks that are left over from the winemaking process. These are taken through a second process of distillation, which extracts the remaining flavors from the pomace before the waste is discarded. Best to enjoy as after dinner drinks to subtle your stomach.
